

Course summary

Electronic court filing: It's fast arriving in California's courts. While there are many advantages to filing and serving electronically, making the transition to eFiling may mean big changes in how you prepare documents and submit them to court.

In California, attorneys and legal professionals are permitted to choose an eFiling service from among several certified providers. These providers incorporate additional features that can help you to file faster and comply with new eFiling rules and requirements.

In this training, Mark Schwartz, from One Legal, will give an overview of the rules and requirements of eFiling in California, which courts are eFiling and a live demonstration of how to place a transaction with One Legal.

Agenda

10 mins	Welcome, course overview, and introduction to One Legal
20 mins	The rules and requirements of eFiling and eService in California
20 mins	Live demo of placing an eFiling and eService order using One Legal
10 mins	Q + A

Your trainer

Mark Schwartz: As One Legal's Court Relations & Public Policy Manager, Mark works very closely with courts throughout the country, helping to develop new eFiling and eService projects. With 40 years in the industry, Mark is an expert on California service of process statutes, case law, and CA Rules of Court regarding eFiling and eService. Formerly our Director of Training, Mark is also a paralegal, co-developed the CALSPRO program, and has served as president and legislative chairman of the California Association of Legal Support Professionals.
